

# KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Legal & General Global Technology Index Trust (the "Fund") Class I Accumulation ISIN: GB00B0CNH163

The authorised fund manager of the Fund is Legal & General (Unit Trust Managers) Limited.

## OBJECTIVE AND INVESTMENT POLICY

### Objective

The objective of this Fund is to provide growth by tracking the performance of those companies in the FTSE World Index which are engaged in Information Technology activities.

### Investment policy:

- The Fund will invest almost entirely in company shares. The Fund's investments will closely match those that make up the Index. On occasion the Fund has to reduce large holdings to ensure it keeps an adequate spread of shares. The Index consists of company shares from around the world.
- The Fund may use derivatives (contracts which have a value linked to the price of another asset) to:
  - reduce risk or cost; or
  - generate additional capital or income with no, or an acceptably low, level of risk.

### Other information:

- Your units will be accumulation units. Income from investments held by the Fund (dividends) will be reinvested into the value of your units.
- You can buy or sell units in this Fund on any business day. You need to contact us with your instruction before 3.00pm. This is the time we calculate unit prices for this Fund. If you contact us after 3.00pm, the units will be bought or sold at the next business day's price.
- The Fund's base currency is denominated in sterling (British pounds).
- This Fund is designed for investors looking for growth from an investment in shares from companies specialising in technology.
- Although investors can take their money out at any time, this Fund may not be appropriate for those who plan to withdraw their money within five years.
- This Fund is not designed for investors who cannot afford more than a minimal loss of their investment.
- If you do not understand this document we recommend you seek additional information to help you decide if this Fund is right for you.

## RISK AND REWARD PROFILE

|   |   |   |   |   |   |   |
|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
|---|---|---|---|---|---|---|

- This risk and reward indicator is based on historical data which may not be a reliable indication of the Fund's risk and reward category in the future.
- The category number highlighted above reflects the rate at which the Fund's unit price has moved up and down in the past. If the Fund has less than 5 years' track record, the number also reflects the rate at which the index the Fund tracks has moved up and down in the past. Higher numbers mean the potential reward could be greater, but this comes with increased risk of losing money.
- The Fund is in category 6 because it invests in company shares which are sensitive to variations in the stock market. The value of company shares can change substantially over short periods of time. Company shares are generally considered to be higher risk investments than bonds or cash.
- The Fund's category is not guaranteed to remain the same and may change over time.
- Even a fund in the lowest category is not a risk free investment.
- The value of your investment may fall as well as rise and is not guaranteed. You might get back less than you invest.
- Further information on the risks of investing in this fund is contained in the Prospectus available at [www.legalandgeneral.com/reports](http://www.legalandgeneral.com/reports).

The risk and reward indicator may not take account of the following risks of investing in the Fund:

- The return from this Fund is dependent on relatively few individual investments. This means that a fall in the value of an individual investment can have a major impact on the overall performance of the Fund.
- Most of the Fund holds investments from a particular market sector, that of information technology. Funds like this can be more volatile than funds that invest across many market sectors. This is because the value of the Fund can go up and down more often and by larger amounts than funds that are spread more widely, especially in the short term.
- The Fund could lose money if any institutions providing services such as acting as counterparty to derivatives or other instruments, becomes unwilling or unable to meet its obligations to the Fund.
- Derivatives are highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains.
- The Fund may have underlying investments that are valued in currencies that are different from sterling (British Pounds). Any such investments will be impacted by exchange rate fluctuations and this may affect the value of your investment and any income from it. Currency hedging techniques may be applied to reduce the impact of exchange rate fluctuations but may not entirely eliminate it.

## CHARGES FOR THIS FUND

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential return from your investment.

| One-off charges taken before or after you invest                                 |        |
|--|--------|
| <b>Entry charge</b>  | 0.00%* |
| <b>Exit charge</b>   | 0.00%* |
| This is the maximum that might be taken out of your money before it is invested. |        |
| *The Fund also incurs a unit price spread. See opposite.                         |        |
| Charges taken from the fund over a year  |        |
| <b>Ongoing charges</b>   | 0.32%  |
| Charges taken from the fund under certain specific conditions                    |        |
| <b>Performance fee</b>   | None   |

- There are no entry or exit charges for this Fund.
- The ongoing charges figure is based on the latest available expenses at December 2017. This figure may change in the future.
- This Fund's ongoing charges include any charges made by any other funds it may invest in. They exclude portfolio transaction costs.
- The ongoing charges are taken from the income of the Fund.

### Other costs:

- **Unit price spread:** each day there are two prices for this Fund: a higher price you pay to buy units and a lower price you receive when you sell units. The Fund manager calculates these prices. The difference between these prices is called the 'spread'.  
The spread is separate to the ongoing charges shown in this section. This Fund's spread reflects the difference between the buying and selling prices of the assets it holds and costs associated with buying and selling the assets. The spread can change at any time and by any amount. As an example, the buying price for units in this Fund was 0.15% higher than the selling price at 31 December 2017.
- For more information about charges and costs, please see the charges and expenses section in the Fund's Prospectus, or visit our website at [legalandgeneral.com/chargesandfees](http://legalandgeneral.com/chargesandfees).

## PAST PERFORMANCE

- Past performance is not a guide to future performance.
- The figures for the Fund take into account the ongoing charges and assume income (after any tax) is reinvested. The figures do not take account of any bid-offer spread or dilution levy or any transaction costs.
- The performance has been calculated in sterling (British pounds).
- The Fund will not replicate the performance of its benchmark index perfectly. This is because the Fund will incur drags on performance such as expenses, tax and transactions costs, which the benchmark index is not subject to.
- The annual return is for a 12 month period ending 31 December.
- The Fund launched in 2000.
- This unit class launched in 2006.
