

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Schroder Asian Income Maximiser

an Authorised Unit Trust of Schroder Unit Trusts Limited

Class Z Income GBP (GB00B52QVQ30)

This fund is managed by Schroder Unit Trusts Limited, which is a member of the Schroders Group.

Objectives and Investment Policy

Objectives

The fund aims to provide income and capital growth by investing in equities of Asian companies, excluding Japan.

The fund aims to deliver a target income of 7% per year but this cannot be guaranteed and could change depending on market conditions.

Investment Policy

The fund invests at least 80% of its assets in equities of Asian companies excluding Japan which are selected for their long term income and capital growth potential.

The fund generates its income from two sources; dividends received from shares in companies; and cash received from selling some of the potential capital growth on the fund's holdings on a rolling basis using derivatives.

The fund may also invest in collective investment schemes and warrants, and hold cash.

The fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the fund more efficiently.

The fund's investment strategy will typically underperform a similar portfolio without derivatives in periods when the underlying stock prices are rising, and outperform when the underlying stock prices are falling.

Benchmark

This unit class is managed with reference to the MSCI AC Pacific ex Japan (NDR) financial index. The manager invests on a discretionary basis and is not limited to investing in accordance with the composition of this benchmark.

Dealing Frequency

You may redeem your investment upon demand. This fund deals daily.

Distribution Policy

This unit class pays income received from the fund's investments to you quarterly.

Risk and Reward Profile

The risk and reward indicator

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Risk factors

The following risks may affect fund performance.

China country risk: Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the fund.

Counterparty risk: The counterparty to a derivative or other contractual agreement or synthetic financial product could

become unable to honour its commitments to the fund, potentially creating a partial or total loss for the fund.

Currency risk: The fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

Derivatives risk: Derivatives are used to generate income (which is paid to investors) and to reduce the volatility of returns but they may also reduce fund performance or erode capital value.

Derivatives risk: A derivative may not perform as expected, and may create losses greater than the cost of the derivative.

Emerging markets & frontier risk: Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

Equity risk: Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares.

Operational risk: Failures at service providers could lead to disruptions of fund operations or losses.

Charges

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
Charges taken from the fund over a year	
Ongoing Charge	0.94%
Charges taken from the fund under certain specific conditions	
Performance fee	None

This is the maximum that might be taken out of your money before it is invested.

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending February 2018 and may vary from year to year.

Please see the prospectus for more details about the charges.

Past Performance

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in British pound after the ongoing charges and the portfolio transaction costs have been paid.

The fund was launched on 1 June 2010.
