

This Plan is designed to repay your initial investment and deliver a return dependent on the performance of the FTSE 100.

Important: This must be read with: Dura Capital Terms & Conditions | Dura Capital FAQs | Issuer Key Information Document (KID)

THE PLAN:

- The first Autocall Date is at the end of year 2. If at the end of year 2, 3, 4, 5, 6, 7 or 8 the FTSE 100 is equal to or above a specified percentage of its Initial Index Level, the Plan will Autocall (mature) returning your initial investment plus a fixed return equal to 7.00% p.a. not compounded.
- If at the end of 8 years the FTSE 100 is lower than 75% of its Initial Index Level, your investment will have earned no return.

YOUR INVESTMENT IS AT RISK:

- If the Plan runs for the full term and the FTSE 100 finishes lower than 60% of its Initial Index Level (i.e. the Index has fallen more than 40%), your initial investment will be reduced by 1% for every 1% fall in the index.

WHO IS THE PLAN AIMED AT?

This Plan is targeted at clients who are looking for equity-linked returns over an 8 year period, but are comfortable that the investment may mature early. It is also intended for people who are cautious on equity market growth.

Investors should be prepared to risk their capital to have the potential of achieving higher returns. Investors should be able to understand complex products and the risks associated with this investment.

Key details

Offer Open Date	16 September 2019
Offer Closing Date	18 October 2019 (11 October 2019 if paying by cheque)
Start Date	23 October 2019
Autocall Dates	25 October 2021 24 October 2022 23 October 2023 23 October 2024 23 October 2025 23 October 2026 25 October 2027
Final Maturity Date	25 October 2027
Plan Manager	Dura Capital Limited
Issuer	Credit Suisse AG, London Branch
Issuer Ratings	A1 (Moody's), A+ (S&P), A (Fitch) as at 05/09/2019
Index	FTSE 100
Initial Index Level	The closing level of the Underlying Index on the Start Date
Currency	GBP
Maximum Term	8 years
Eligible Investment Types	Direct investments, ISAs (excluding Applications must be made via a financial adviser ISA Transfers), SIPP, SASS, most trusts

Terms

Return of 7.00% p.a. not compounded if the Index closes equal to or above the relevant annual Autocall level.

Annual Autocall levels and returns:

End of year 1, No Autocall

End of year 2, 100% of Initial Index Level: 14.00% return

End of year 3, 100% of Initial Index Level: 21.00% return

End of year 4, 95% of Initial Index Level: 28.00% return

End of year 5, 95% of Initial Index Level: 35.00% return

End of year 6, 90% of Initial Index Level: 42.00% return

End of year 7, 85% of Initial Index Level: 49.00% return

End of year 8, 75% of Initial Index Level: 56.00% return

Capital repayment: should the Plan not Autocall, your Plan will mature paying:

- If at the end of the 8 year term the FTSE 100 is below 75% but equal to or above 60% of its Initial Index Level, you will receive your initial investment back without any additional return
- However, if the FTSE 100 is lower than 60% of its Initial Index Level, you will lose money and your initial investment will be returned minus 1% for every 1% fall in the index

Risk indicator

LOWER RISK

HIGHER RISK

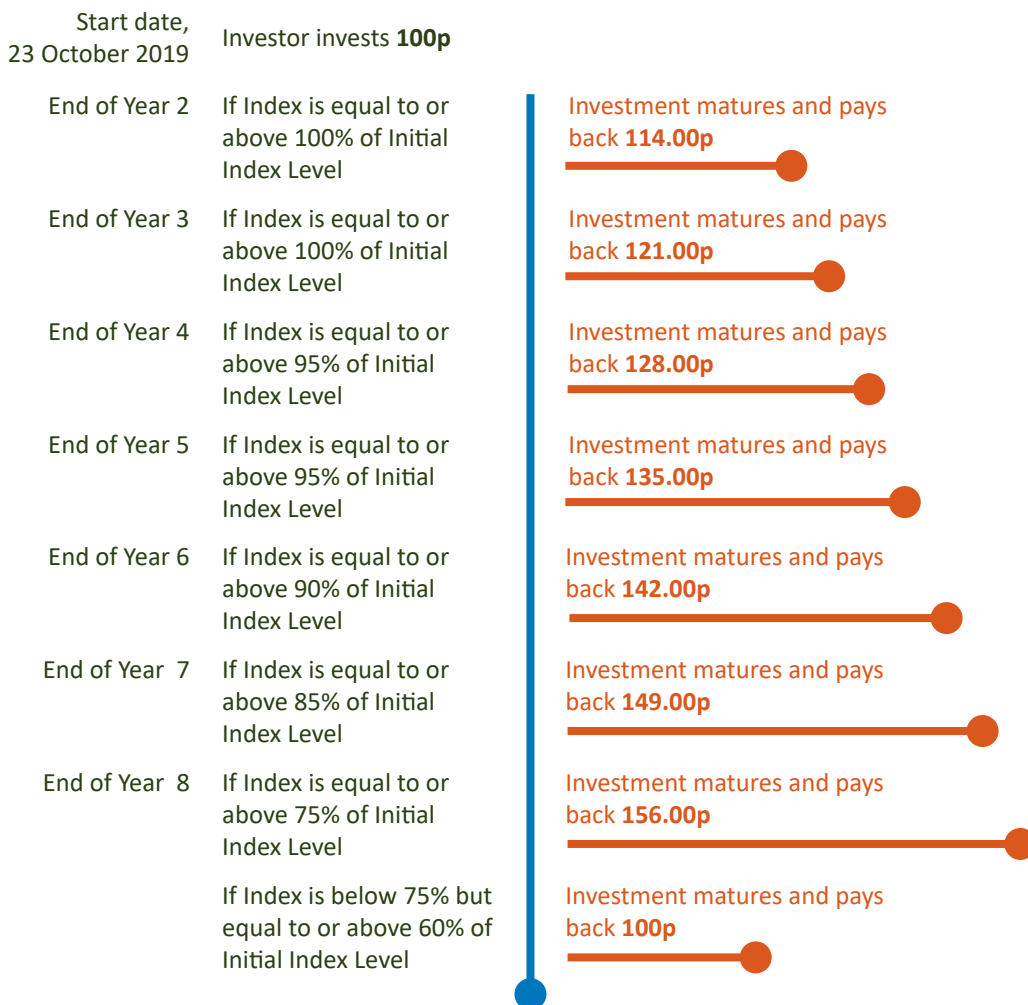

The risk indicator assumes you keep the Plan until maturity. The actual risk can vary significantly if you cash in at an early stage and you may get back less than you invested. You may not be able to sell your Plan easily or may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this Plan compared to other products. It shows how likely it is that the Plan will lose money because of movements in the markets or because the Issuer is not able to pay you.

The Issuer has classified this investment as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions are very unlikely to impact the issuer’s capacity to pay you.

The payoff summary

The flow chart illustrates the different possible outcomes for the Plan, please note the first Autocall Date is at the end of year 2. It shows that this Plan has a maximum possible life of 8 years, but it can mature early on any Autocall Date. Early maturity is dependent on the FTSE 100 being equal to or above a specified percentage of its Initial Index Level on the respective anniversary date.

If the Index is lower than 60% of its Initial Index Level, your initial investment will be returned minus 1% for every 1% fall in the index
(PLEASE SEE EXAMPLE SCENARIOS OVERLEAF)

Example scenarios

The table below shows examples of maturity proceeds based upon an initial investment of £10,000 and assumes the Plan runs for the full 8 years. The exact return you receive will be dependent on the amount you invest and the performance of the FTSE 100 over the Plan Term.

Level of Index at Maturity	Maturity Proceeds
50% higher	£15,600
25% higher	£15,600
No change	£15,600
25% lower	£15,600
40% lower	£10,000
45% lower	£5,500
50% lower	£5,000
75% lower	£2,500

Please note the above figures are examples only and not indicative of future performance.

Costs over time - Investment: GBP 10,000

Scenarios		If you cash in after 1 year	If the Plan runs for the full term
One-off costs	Entry costs	£100 (1.00%)	£100 (1.00%)
	Exit costs	£0	£0
Ongoing costs	Annual management fees	£0	£0
	Other ongoing costs	£0	£0
Total costs		£100 (1.00%)	£100 (1.00%)

These costs represent the total charges taken by the Plan Manager, which covers the costs to administer and distribute the Plan.

They are included in the costs shown in the Key Information Document (KID) which is prepared by the Issuer and can be found in the Current Offers page on our website and must be read in conjunction with this brochure before making any investment.

These costs and fees have been calculated when setting the return for the Plan. The impact of the costs are already included in the Plan return. For clarity no charges are taken away from your initial investment or your potential maturity payment. There are no annual management charges or charges for early redemptions, so any returns are based upon the full amount you invest into the Plan at the start date.

About Credit Suisse

The Notes in which your Plan invests are issued by Credit Suisse AG, acting through its London Branch. Credit Suisse is a global leading wealth manager with strong investment banking capabilities. Founded in 1856, Credit Suisse today have a global reach with operations in 50 countries and 46,000 employees from over 150 different nations.

The Swiss headquartered bank serve clients through three regionally focused divisions: Swiss Universal Bank, International Wealth Management and Asia Pacific. These regional businesses are supported by two other divisions, working across geographical borders and specialising in investment banking capabilities: Global Markets and Investment Banking & Capital Markets. The business divisions cooperate closely to provide holistic financial solutions, including innovative products and specially tailored advice.

Who is this Plan suitable for?

THIS PLAN **MAY** BE SUITABLE FOR YOU IF YOU:

- are able and comfortable with leaving your money invested for up to eight years and that the Plan may mature early on one of the Autocall Dates
- are able to bear significant losses if the market has fallen by more than 40% at maturity. In extreme circumstances you may lose most or all of your investment
- have at least £3,000 to invest and have a larger diversified and balanced investment portfolio
- are comfortable with investing in a Plan that is linked to the UK Stock Market
- are looking for a return which is higher than they would achieve from a risk free investment
- accept that in order to achieve a higher return, there is a risk that you may get back less than your original Investment at maturity
- understand how the Plan works, in particular that the payment of any return and any repayment of your investment at maturity are not guaranteed and dependent on the Issuer being able to meet their payment obligations

THIS PLAN **MAY NOT** BE SUITABLE FOR YOU IF YOU:

- do not want to put your initial investment at risk
- do not want an investment that is linked to the UK Stock Market
- need a guaranteed return on your investment
- need a regular income
- need instant access to your money before maturity
- need an investment that is covered by the Financial Services Compensation Scheme (FSCS)

WHAT ARE THE **RISKS** OF THE INVESTMENT?

- Your initial investment is at risk. If the FTSE 100 finishes lower than 60% of its Initial Index Level at the Final Maturity Date, you will lose some or all of your money
- If you redeem your investment before the end of the Final Maturity Date, you may get back less than the amount you originally invested
- If the Issuer fails or becomes insolvent (i.e. goes bankrupt or similar), you could lose some or all of your money
- Inflation will reduce the real value of your return
- The tax treatment of the Plan could change at any time
