- Income from the fund will be added to the value of your investment.
- Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.
- Derivatives may be used to manage the risk profile of the fund, reduce costs or generate additional income.

### Risk and reward profile

- This indicator shows how much a fund may have risen and fallen in the past, and therefore how much a fund's returns may have varied. It is a measure of a fund's volatility. As the fund has less than 5 years price history, this calculation incorporates the volatility of an appropriate benchmark index. The higher a fund's past volatility the higher the number on the scale and the greater the risk that investors in that fund may have made losses as well as gains. The lowest number on the scale does not mean that a fund is risk free.
- The fund has been classed as 6 because the volatility has been measured as above average to high, based on the calculation methodology noted above.
- This indicator is based on historical data and may not be a reliable indication of the future risk profile of this fund.
- The risk and reward profile shown is not guaranteed to remain the same and may shift over time.

- Currency Risk: As the fund invests in overseas securities, movements in exchange rates may, when not hedged, cause the value of your investment to increase or decrease.
- Liquidity Risk: Smaller companies' securities are often traded less frequently than those of larger companies which means they may be more difficult to buy and sell. Their prices may also be subject to significant short term swings (both up and down).
- Counterparty Risk: As the fund may enter into currency hedging arrangements there is a risk that other parties may fail to meet their obligations. This may lead to delays in receiving amounts due to the fund receiving less than is due or receiving nothing.
- For full details of the fund's risks, please see the prospectus which may be obtained from the address in 'Practical Information' below.
