Lazard Global Equity Franchise Fund C Acc GBP

Lazard Global Equity Franchise Fund is a sub-fund of Lazard Global Active Funds Public Limited Company (the "UCITS")

ISIN: IE00BF2N1T73

This Fund is managed by Lazard Fund Managers (Ireland) Limited, part of the Lazard Group

Objectives and Investment Policy

Lazard Global Equity Franchise Fund (the "Fund") aims to achieve long-term capital appreciation.

The Fund is actively managed and the investment strategy is to invest primarily in equities (i.e. shares) and equity-related securities (i.e. shares including common and preferred stock, warrants and rights) of companies located throughout the world selected from a general investment universe classified as "Franchise Companies" (i.e. companies which the Investment Manager believes to have competitive advantages that have enabled them to historically have a high degree of earnings or cash flow forecastability).

In identifying the Franchise Companies in which the Fund will invest, the Investment Manager applies a series of objective filters (looking for liquidity and stable long term profitability) and qualitative measures (for example, the extent of a company's natural monopoly, the extent to which it displays cost leadership, etc).

The Fund may also invest up to 10% of its value in units or shares of other investment funds (including exchange traded funds and other sub-funds of the UCITS). In addition, the Fund may invest on a global basis in Convertible Securities (which are investments that are convertible into equity securities of the issuer) and in units or shares of closed-ended listed funds.

In order to ensure full flexibility to seek exposure to Franchise Companies on a world-wide basis, in excess of 20% of the Fund's value may be invested in emerging markets.

Up to 10% of the Fund's net assets may be held in cash and in investments that are deemed to be equivalent to cash. This percentage may be exceeded where deemed

appropriate by the Investment Manager in light of market conditions and the best interests of Shareholders.

The Fund may use derivatives (which are financial contracts whose value is linked to the price of an underlying investment) for the purposes of efficient portfolio management.

You can buy and sell shares in the Fund on any day on which the stock exchanges in London, New York and Sydney are open for business.

The Fund has discretion as to which investments it will hold within the limits of the Investment Objective and Policy.

Income and profits, if any, attributable to your shares will not be paid out as a dividend but will be accumulated in the Fund on your behalf and reflected in an increase in the value of your holdings.

The Fund's performance is measured against the performance of MSCI World Index (the "Benchmark"), which the Investment Manager has assessed to be the most appropriate Benchmark for measuring performance. The performance of the Fund seeks to exceed the Benchmark performance. The Fund is not constrained by the Benchmark as it has flexibility to invest in securities and asset classes not included in the Benchmark.

The Fund promotes environmental and/or social characteristics within the meaning of Article 8 of Regulation (EU) 2019/2088, the "SFDR Regulation".

Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money within a short period of time.

Risk and Reward Profile

The risk and reward categories above are calculated using historic data and may not be a reliable indicator of the Fund's future risk profile. The risk and reward category may shift over time and is not a target or guarantee.

The lowest category (i.e. category 1) does not mean "risk free".

The risk rating of this share class is calculated on the basis of historic volatility – i.e. how much the value of the underlying assets of the Fund has fluctuated over the last 5 years. As this share class does not have 5 years' performance data available, we have simulated the volatility, using a suitable proxy, based on historic data.

This share class has been placed in the risk category stated above, because based on the simulated historic data, the underlying assets within the Fund have shown high volatility.

Please note, there are other risks that may not be reflected in the risk and reward categories above. Some of these risks are summarised below.

- There is no capital guarantee or protection of the value of the Fund. The value of your investment and the income from it can go down as well as up and you may not get back the amount you originally invested.

- This Fund may invest in the securities of emerging markets. These markets may be less developed than others and so there is a greater risk that the Fund may experience greater volatility, delays in buying, selling and claiming ownership of its investments. Emerging markets may also have less developed political, economic and legal systems and there is a higher risk that the Fund may not get back its money.
- There is a risk that the other side to certain contracts that the Fund may enter into may not be able to meet obligations. For example, this may arise in the Fund where an investment is made using a derivative, and the other side to the derivative contract becomes insolvent, or is otherwise unable to meet its obligations. In such a case, the Fund may incur loss.
- The Fund may invest in units or shares of other investment funds. Such other funds may themselves be subject to their own fees and expenses.
- The returns from your investment may be affected by changes in the exchange rate between the Fund's base currency, the currency of the Fund's investments, your share class and your home currency.
- This is an unhedged share class, your shares will be exposed to exchange rate fluctuations between their denominated currency and the base currency of the Fund. This may affect the performance of your shares.

See "Risk Factors" in the UCITS' Prospectus and Fund Supplement for more information about risks.

Charges

The charges you pay are used to pay the costs of running the Fund, including marketing and distributing costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	3.00%
Exit charge	2.00%

This is the maximum that might be taken out of your money before it is invested and before proceeds of your investment are paid out.

The MSCI data may not be further redistributed or used as a basis for other indices or any securities or financial products. This document is not approved, reviewed or produced by MSCI.

Practical Information

The UCITS' depositary is The Bank of New York Mellon SA/NV (Dublin Branch).

The Fund is one of a number of sub-funds of the UCITS. The assets and liabilities of each sub-fund are segregated by law from each other and the rights of investors and creditors in relation to a sub-fund should normally be limited to the assets of that sub-fund.

You may switch between sub-funds of the UCITS. See "Switching Between Share Classes and Funds" in the UCITS' Prospectus.

Further information about the Fund may be obtained from the UCITS' Prospectus (available in English and German), the annual and half-yearly Report and Accounts which are prepared for the UCITS as a whole (available in English, German and Italian). These documents are available free of charge from Lazard Asset Management Limited, 50 Stratton Street, London, W1J 8LL or at www.lazardassetmanagement.com.

The Fund is subject to the tax legislation of Ireland. This may have an impact on your personal tax position.
